

## Near Organic Tan Eggs

KEGGS are nutrient rich, Near Organic Tan Eggs, produced in a safe environment with strict quality control to provide a truly great tasting egg.

Delivered fresh from farm to retail outlets, KEGGS have a deep yellow yolk, which stands firm on egg whites

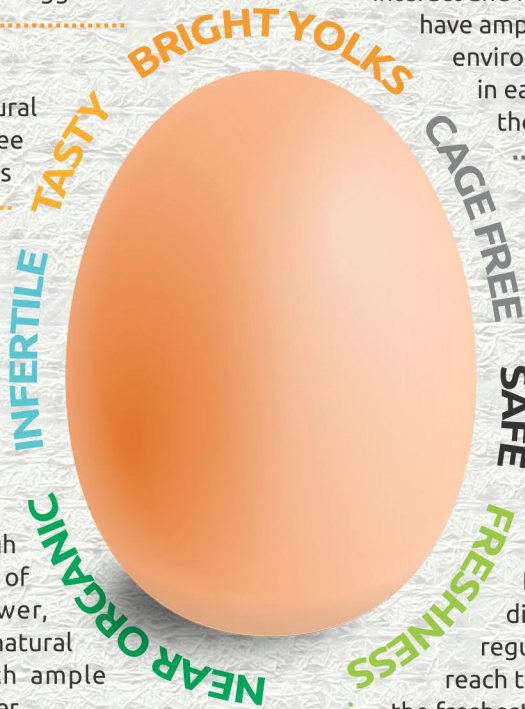

KEGGS have a distinctly natural wholesome taste and are free from all odours

Infertile eggs - No life inside!

Our birds are fed a custom formulated high quality, nutritionally rich balanced diet of maize, rice derivatives, soya, sunflower, limestone, vitamins and other natural plant products together with ample greens and clean filtered water

The hens are housed humanely in Cage-free enclosures on deep litter. They are free to move and socially interact and rest on special wooden perches. They have ample access to sunlight and natural environment. Our hens lay their eggs in earthen nests which become their private domain

Produced by healthy birds, these eggs are bird flu & disease free. The feed does not contain antibiotics, hormones, chemical stimulants or any other ingredient that may have a carryover effect. No material of animal origin is included

KEGGS are delivered fresh from farm directly to individual retail outlets in regulated quantities, ensuring that they reach the consumer's refrigerator in the freshest possible state

## Wholesome & Fresh
